DIVISION OF  
WATER RIGHTS

HUBERT C. LAMBERT  
STATE ENGINEER

December 20, 1968

Mr. Roger Walker  
R.F.D. #1  
Delta, Utah 84624

Dear Mr. Walker:

Meetings were held in March of 1968 and December 11, 1968, concerning the clarification of the water rights under which water was being diverted into the Murphy Ditch. Information received at the meetings and through subsequent research shows that the Murphy Ditch historically has been an integral part of the Salina Creek Irrigation system and that those diverting water could only be diverting through a stock ownership in the Salina Creek Irrigation Company.

The irrigation company has filed Change Application a-5679 changing their points of diversion to the Trunk Canal through which all water will be diverted.

You are hereby directed that no water shall be taken through the Murphy Ditch unless a measuring device and headgate is installed prior to the diversion. Any water then diverted is to be charged to the Salina Creek Irrigation Company.

This decision is subject to the provisions of Section 73-3-14, Utah Code Annotated, 1953, which provides for the plenary review by the filing of a Civil Action in the appropriate District Court within sixty days from the date hereof.

Yours very truly,

*Hubert C. Lambert*
